Then and Now: Comparing the State of U.S. Defense Research and Development From the 1950s to the Present Day

PUBLIC TALK

Zachary Lemnios
Assistant Secretary of Defense for Research and Engineering

Wednesday, June 29
Lecture: 4:30pm
The Forum (Level 4), Price Center East
University of California San Diego, La Jolla

Light reception begins at 4:00pm

What are the major defense technological challenges facing the U.S. today?
How has defense R&D changed since the 1950s?
How have new security challenges changed the way defense R&D is conducted?

The Honorable Zachary J. Lemnios is Assistant Secretary of Defense for Research and Engineering. The Assistant Secretary provides thought leadership for the Department’s near-, mid- and far-term research and engineering efforts.

The annual Herb York lecture series honors the memory of UC San Diego’s founding chancellor and the myriad contributions he made to the field of international security and arms control. Dr. York, a distinguished nuclear physicist, founded the UC Institute on Global Conflict and Cooperation (IGCC) as well as the Defense Advanced Research Projects Agency (DARPA) and the Defense Research and Engineering Directorate. Mr. Lemnios is the 15th head of Defense Research and Engineering.
