New Insights into Chinese Defense Science, Technology, and Innovation

Jointly Organized by the University of California Institute on Global Conflict and Cooperation and School of Advanced International Studies, Johns Hopkins University

July 29, 2015

Location: University of California San Diego, La Jolla

The University of California Institute on Global Conflict and Cooperation (IGCC) in partnership with Johns Hopkins University’s Paul H. Nitze School of Advanced International Studies (SAIS) is hosting a one-day seminar that offers insights and rigorous analysis into China’s deepening efforts to develop its defense science, technology, and innovation capabilities. The course will give participants insight into cutting-edge research on the Chinese defense industry by leading experts.

The one-day seminar will be led by Professor Thomas G. Mahnken, director of the SAIS Advanced Strategy program, and Professor Tai Ming Cheung, IGCC director and a faculty member at UCSD’s School of Global Policy and Strategy.

It will take place at the La Jolla campus of UC San Diego. Apply early as seating will be limited. Please get in touch with Elizabeth Santillanaz, Program Manager, at esantill@ucsd.edu, or at (858) 534-2990 for further details.
