US-CHINA STRATEGIC COMPETITION IN DEFENSE TECHNOLOGICAL AND INDUSTRIAL DEVELOPMENT

2016 CONFERENCE

SPEAKERS DIRECTORY

STUDY OF INNOVATION AND TECHNOLOGY IN CHINA

Daniel Alderman is a vice president at the Defense Group Inc. (DGI), where he serves as the deputy director for analysis of DGI’s Center for Intelligence Research and Analysis (CIRA). Within CIRA, he manages a team of over 20 linguist-analysts conducting native-language analysis in Chinese, Russian, and Farsi. His research interests include China’s talent recruitment, technology transfer efforts, civil-military relations, and defense industrial reforms. Alderman previously served as an assistant director at the National Bureau of Asian Research. A Chinese linguist, he received an MA in Asian studies at the George Washington University’s Elliott School of International Affairs.

Eric Anderson joined the UC Institute on Global Conflict and Cooperation (IGCC) project on the Study of Innovation and Technology in China (SITC) in 2012. His research interests include China’s defense industrial complex, military technology developments, and science and technology policy. At IGCC, he also leads the organization of many multilateral and bilateral forums to engage scholars and policymakers in discussing pressing security and innovation issues. These include the Northeast Asia Cooperation Dialogue and California-Shanghai Innovation Dialogue. Anderson completed a masters of pacific international affairs from the School of Global Policy and Strategy at UC San Diego. In addition to English, he is fluent in Mandarin Chinese.

Richard A. Bitzinger is a senior fellow and coordinator of the Military Transformations Program at the S. Rajaratnam School of International Studies. Bitzinger has written several monographs and book chapters, and his articles have appeared in such journals as International Security, The Journal of Strategic Studies, Orbis, China Quarterly, and Survival. He is the author of Towards a Brave New Arms Industry?, “Come the Revolution: Transforming the Asia-Pacific's Militaries,” Naval War College Review, Transforming the U.S. Military: Implications for the Asia-Pacific, and “Military Modernization in the Asia-Pacific: Assessing New Capabilities,” Asia's Rising Power. He is also the editor of The Modern Defense Industry: Political, Economic and Technological Issues. Bitzinger was previously an associate professor with the Asia-Pacific Center for Security Studies (APCSS), Honolulu, Hawaii, and has also worked for the RAND Corporation, the Center for Strategic and Budgetary Affairs, and the US Government. In 1999-2000, he was a senior fellow with the Atlantic Council of the United States, and he was a visiting fellow with the Institute on Global Conflict and Cooperation, UC San Diego, in January 2010. He holds a master’s degree from the Monterey Institute of International Affairs and has pursued additional postgraduate studies at UCLA.
TAI MING CHEUNG

Tai Ming Cheung is the director of the UC Institute on Global Conflict and Cooperation (IGCC) and the leader of IGCC’s Minerva project, “The Evolving Relationship Between Technology and National Security in China: Innovation, Defense Transformation, and China’s Place in the Global Technology Order.” He is a long-time analyst of Chinese and East Asian defense and national security affairs. Cheung was based in Asia from the mid-1980s to 2002 covering political, economic, and strategic developments in greater China. He was also a journalist and political and business risk consultant in northeast Asia. Cheung received his PhD from the War Studies Department at King’s College, London University, in 2006. His latest book, Fortifying China: The Struggle to Build a Modern Defense Economy, was published by Cornell University Press in 2009. He is an associate professor at the School of Global Policy and Strategy at UC San Diego, where he teaches courses on Asian security and Chinese security and technology.

KATHERINE BLAKELEY

Katherine Blakeley is a research fellow at Center for Strategic and Budgetary Assessments (CSBA). Her principal research areas include the defense budget and defense resource allocation, acquisitions, and defense reform. She also focuses on trade-offs within the defense budget, and long-term defense budget trends. Prior to joining CSBA, Blakeley worked as a defense policy analyst at the Congressional Research Service and the Center for American Progress. Her commentary and analysis has appeared in DefenseNews, Breaking Defense, Inside the Pentagon, Bloomberg, Politico, and others. She is completing her PhD in political science from UC Santa Cruz, where she also received her MA. Her academic research examines Congressional defense policymaking through the NDAA process. Blakeley graduated from Vassar College with honors.

MICHAEL CHASE

Michael S Chase is a senior political scientist at RAND, a professor at the Pardee RAND Graduate School, and an adjunct professor in the China Studies and Strategic Studies Departments at Johns Hopkins University’s School of Advanced International Studies (SAIS) in Washington, DC. A specialist in China and Asia-Pacific security issues, he was previously an associate professor at the U.S. Naval War College (NWC) in Newport, Rhode Island, where he served as director of the strategic deterrence group in the Warfare Analysis and Research Department and taught in the Strategy and Policy Department. Prior to joining the faculty at NWC, he was a research analyst at Defense Group Inc. and an associate international policy analyst at RAND. He is the author of the book Taiwan’s Security Policy and numerous chapters and articles on China and Asia-Pacific security issues. His work has appeared in journals such as Asia Policy, Asian Security, China Brief, Survival, and the Journal of Strategic Studies. Chase holds a PhD in international affairs and MA in China Studies from SAIS and a BA in politics from Brandeis University. In addition, he studied Chinese at the Hopkins-Nanjing Center in Nanjing, China.
Dr. Vasily Kashin is a senior researcher at the Higher School of Economics Center and continues his work in the Far Eastern Studies Institute North-East Asia Center. He worked as a senior research fellow for Analysis of Strategies and Technologies (CAST), Moscow-based defense industry consultancy. Prior to his position with CAST, he was deputy chief of the Beijing office of the Russian Information Agency (RIA) Novosti. From 2001-2009, he was a senior researcher at the Center for Research of Russian-Chinese Relations at the Institute for Far Eastern Studies in Moscow. He has also worked for Vedomosti business newspaper as the deputy editor of the international department. Kashin has served as an attache for the Foreign Affairs Ministry of Russia in Mongolia. He graduated from the Institute for Asian and African Studies at Moscow State University in 1996 and also studied financial management at the State University of Management in Moscow.

Fan Gaoyue, senior colonel (retired), is now a senior research fellow and project director at the China Strategic Culture Promotion Association and a guest professor at the Collaborative Innovation Center for Security and Development of Western Frontier China, Sichuan University. He was a research fellow, deputy director, director and chief specialist at the People’s Liberation Army (PLA) Academy of Military Science (AMS) in Beijing. His research interests include US military affairs, international security and cooperation, international arms control and disarmament. He studied at Jilin University and the Southwest China Normal University, where he received a MA in British and American English language and literature. He was trained at PLA National Defense University for a year, studied as a visiting scholar at the University of Pennsylvania for a year, and studied as a resident WDS-Handa Fellow at the Pacific Forum CSIS for half a year. He served as an infantry officer, staff officer, and English instructor before he came to AMS. He has published two dozens of books, including Iraq War: the First War That Is Characterized by Information Age, Joint Operations and Joint Training of the US Armed Forces, The US Special Forces, and over 50 study reports and 230 articles.

Prior to joining the Center for Strategic and Budgetary Assessments (CSBA) in 2013, Bryan Clark was special assistant to the Chief of Naval Operations and director of his Commander’s Action Group, where he led development of Navy strategy and implemented new initiatives in electromagnetic spectrum operations, undersea warfare, expeditionary operations and personnel and readiness management. Clark served in the Navy headquarters staff from 2004 to 2011, leading studies in the Assessment Division and participating in the 2006 and 2010 Quadrennial Defense Reviews. His areas of emphasis were modeling and simulation, strategic planning and institutional reform, and governance. Prior to retiring from the Navy in 2007, Clark was an enlisted and officer submariner, serving in afloat and ashore submarine operational and training assignments including tours as chief engineer and operations officer at the Navy’s nuclear power training unit. Clark holds a master of science in national security studies from the National War College and a bachelor of science in chemistry and philosophy from the University of Idaho. He is the recipient of the Department of the Navy Superior Service Medal and the Legion of Merit.
Dr. Evan Montgomery is a senior fellow at the Center for Strategic and Budgetary Assessments (CSBA). His principal research areas include long-term competitions, trends in future warfare, alliance management, and East Asia security issues. He also focuses on US nuclear strategy and force structure, as well as the causes and consequences of nuclear proliferation. Montgomery is the author or coauthor of nearly two-dozen CSBA reports, most recently The Future of America’s Strategic Nuclear Deterrent, The Cost of U.S. Nuclear Forces: From BCA to Bow Wave and Beyond, and Extended Nuclear Deterrence in an Era of Contested Primacy. His commentary and analysis have appeared in Foreign Affairs, The Wall Street Journal, The National Interest, The Diplomat, Defense News, and Real Clear Defense. He has also published numerous articles in academic journals such as International Security, Security Studies, and the Journal of Strategic Studies as well as his book In the Hegemon’s Shadow: Leading States and the Rise of Regional Powers. Montgomery has received fellowships from the Smith Richardson Foundation and the Council on Foreign Relations. He graduated with a BA in political science and sociology from Villanova University, and earned his MA and PhD in foreign affairs from the University of Virginia.
Julian Snelder is a New Zealand national who has lived in Asia since 1990. He worked for the management consultancy McKinsey & Company for eight years, and for the investment bank Morgan Stanley for eight years, the latter role as head of technology investment banking for Asia. Since 2005 he has been founding partner of an emerging market investment fund. He has two bachelors’ degrees, both with first class honors, in mechanical engineering from the University of Canterbury and in economics from Trinity College, University of Cambridge.

KEVIN POLLPETER

Kevin Pollpeter is a research scientist at the Center for Naval Analyses and an adjunct at RAND. Prior to these positions he was deputy director of the University of California Institute on Global Conflict and Cooperation (IGCC) project on the Study of Innovation and Technology in China (SITC), a deputy director of the East Asia Program at Defense Group Inc., and a researcher at RAND. Pollpeter is widely published on China national security issues, focused on China’s space program and information warfare. His most recent publications include China Dream, Space Dream: China’s Progress in Space Technologies and Implications for the United States, and “Chinese Writings on Cyberwarfare and Coercion,” in China and Cybersecurity: Espionage, Strategy, and Politics in the Digital Domain. A Chinese linguist, he holds an MA in international policy studies from the Monterey Institute of International Studies and is currently enrolled in a PhD program at King’s College London.

JONATHAN RAY

Jonathan Ray is a research associate at Defense Group Inc. (DGI), where he conducts research and analysis using Chinese-language sources on foreign policy, national security, and science and technology issues. Previously, he was a contract researcher at the National Defense University, where he wrote Red China’s “Capitalist Bomb”: Inside the Chinese Neutron Bomb Program. Ray has several publications including, From Sticks to Carrots: Incentives for Dual-Use Industries to Support Nonproliferation for Pacific Northwest National Laboratories, East Asian Views on Reprocessing for Arms Control Today, Show and TEL and A Chinese “Nuclear Umbrella” for Ukraine? That’s Not What Xi Said! for Arms Control Wonk. Ray received his BA in China and Asia-Pacific studies from Cornell University and MA in nonproliferation and terrorism studies from Monterey Institute of International Studies. He also attended and completed studies at Peking University, Nanjing University, and obtained a Chinese Flagship Certification in Mandarin Chinese from Brigham Young University.

JULIAN SNELDER

Julian Snelder is a New Zealand national who has lived in Asia since 1990. He worked for the management consultancy McKinsey & Company for eight years, and for the investment bank Morgan Stanley for eight years, the latter role as head of technology investment banking for Asia. Since 2005 he has been founding partner of an emerging market investment fund. He has two bachelors’ degrees, both with first class honors, in mechanical engineering from the University of Canterbury and in economics from Trinity College, University of Cambridge.
Jordan Wilson works as a security and foreign affairs policy analyst at the US-China Economic and Security Review Commission, where he writes on China’s defense modernization, its political and foreign policy activities, and broader foreign affairs developments in the Asia Pacific, focusing particularly on their implications for US legislative policy. Prior to joining the Commission, Wilson worked at the UC Institute on Global Conflict and Cooperation (IGCC) as a research assistant with the Study of Innovation and Technology in China (SITC) project, where he also examined China’s defense science and technology progress. Wilson has a master’s degree in international affairs from the School of Global Policy and Strategy at UC San Diego, where he focused on international politics and China in particular and also studied Mandarin Chinese. He has a bachelor’s degree in business administration from Thomas Edison State University.
